<b>Report Classification</b>			
<b>Police Scotland:</b>	<b>For Noting</b>		
<b>SPA:</b>	<b>For Noting</b>		
<b>EXECUTIVE SUMMARY</b>			
<b>1.</b>	<b>Purpose</b>		
1.1	<p>This paper provides the Scottish Police Authority (SPA) with a weekly update on policing changes seen during Operation TALLA, Police Scotland's COVID-19 response.</p> <p>This report contains the preceding week's information and data on changing demands within the service centre, incident attendance and crime. It will also consider our COVID-19 response including our use of the emergency legislation and how we are assisting our officers and staff welfare throughout these challenging times.</p> <p>This update will have a reporting period, Thursday to Wednesday. For the purpose of this report, the week of Thursday 18<sup>th</sup> June 2020 to Wednesday 24<sup>th</sup> June 2020 is considered.</p>		
<b>2.</b>	<b>Decision Requested</b>		
2.1	N/A		
<b>3.</b>	<b>Recommendation</b>		
3.1	N/A		
<b>4.</b>	<b>Alignment to Police Scotland Strategic Outcomes</b>		
4.1	<p>This report aligns to both Police Scotland's Strategic Outcomes and the Operation TALLA Strategic Objectives as set out by DCC Malcolm Graham.</p> <p>This report discusses the flexible and adaptable response to the challenges posed by COVID-19 by Police Scotland (SO1, SO2 and SO5). It further highlights the activities undertaken by Police Scotland to protect our people (SO4). The levels of intervention activity discussed in the report serve to protect our communities from COVID-19 (SO1, SO2). The frequent, transparent publication of papers, such as this, and those published on the Police Scotland website provide engagement with communities, to maintain trust and confidence (SO3).</p>		

5.	Main Report
----	-------------

## 5.1 CURRENT LANDSCAPE

Over the last week, as Scotland entered 'Phase 2' of the 'Route map through and out of the Crisis,' Police Scotland have adapted their approach applying the updated guidelines accordingly. The initial changes in 'Phase 2' which came into effect on Fri 19<sup>th</sup> June allowed those living alone or single parents with children under 18 to widen their 'social bubble.' Face coverings became mandatory for anyone using public transport from Monday 22<sup>nd</sup> June. The quarantine regulations continued to be applied to those entering the UK from abroad.

The weather during this week has been changeable and not assessed to have had any significant impact on the behaviour of the public and again there have been several days where no COVID-19 fixed penalty notices were issued.

Protest and counter protest activity has continued across the country placing additional demands and challenges on the organisation, and announcements in relation to a return to full time to education for Scottish children in August should the virus continue to be suppressed have been welcomed by most. Planning has commenced around the re-opening of licensed premises' outside areas for food and drink consumption on Monday 6<sup>th</sup> July, and the added demands this will create for Police Scotland.

## 5.2 SERVICE CENTRE DEMAND

In the last week, the volume of 101 calls answered decreased by 4% whilst the volume of 999 calls answered by Police Scotland increased by 9%. Calls to 999 are slightly higher than levels seen during the same period last year, at the same time as there is a 10% reduction in 101 calls for the equivalent time period in 2019.

## 5.3 INCIDENT DEMAND

When compared to the previous week, incident volumes have not changed.

Public nuisance incidents saw a decrease of 11% when compared to last week and noise complaints have decreased by 1%. Theft incidents have increased by 1%. Incidents relating to assault increased by 7% and missing person incidents are static when compared to the previous week.

In comparison to the previous year, each of these incident types continue to trend at lower levels with the exception of public nuisance and noise, which continue to trend at considerably higher levels.

#### **5.4 CRIME**

Crime is currently lower than seasonal averages. Recorded crime has decreased by 8.7% from the previous week and is down 10.4% from the same week in the previous year.

There has been a decrease of 8% in the level of fraud from the previous week however the volume of fraud remains considerably higher than the previous year. The increase this year may in part be due to a change in the reporting standards for fraud introduced at the beginning of April, making a comparison to last year less appropriate.

#### **5.5 COVID-19 INTERVENTION ACTIVITY**

As the governmental guidance enters 'Phase 2' of easing lockdown restrictions, Police Scotland's approach to the use of COVID-19 legislation continues to be to firstly engage with people, explain the provisions and encourage them to comply with the necessary restrictions, with enforcement action being taken only where absolutely necessary.

The overall style and tone and style of policing the pandemic in Scotland has not changed since the inception of the public health emergency.

In the last seven days, Police Scotland officers attended 18786 incidents. The Covid intervention powers have been used on 1989 occasions over the same time period, which is a 21% decrease on last week's figures. Due to the manual nature of data recording for these lower level interventions, Police Scotland may not capture every occurrence of such activity. It is highly likely that the percentage of intervention activity which results in enforcement is actually be smaller than reported.

Officers have had to resort to enforcement action on 39 occasions throughout the week. This is 2 occasions lower than the previous week.

#### **5.6 PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Securing suitable PPE remains an ongoing priority and the dedicated Logistics cell has continued to provide extensive training, equipping and resupply, operating on an early shift late shift basis. Supply lines remain fragile and this will be a long term challenge.

Up to and including the 25th June, over 14500 frontline police officers and staff have been trained in, supplied or resupplied appropriate PPE. This is in conjunction with the provision of significant measures to implement physical distancing within the workplace wherever possible.

Protest activity taking place across the country continues to impact the PPE usage, and it is unclear as yet what bearing if any the newly introduced legislation around compulsory wearing of face coverings on public transport will have.

## **5.7 ABSENCE**

Over the past week, employee absence levels have consistently trended below levels of the same dates in 2019. Those absences related to COVID-19 have also continued to decline. This has been an established pattern since the last week in May. It was anticipated that the Scottish approach to 'Test and Protect' in order to limit the spread of the virus moving forwards, may have seen pockets of absence across teams or shifts. This has yet to materialise.

## **5.8 OFFICER AND STAFF COVID-19 SCREENING**

People & Development continue to support our workforce and to provide reassurance to officers and staff who are symptomatic. To assist with returning officers and staff to work as soon as possible, a formal COVID-19 testing regime continues. Up to and including 25th June over 1100 tests have been arranged. Of these tests, around 200 have returned as positive for COVID-19.

Testing of asymptomatic officers and staff based on risk commenced on 14th May and around 230 tests have been arranged up to and including 17th June. None of these tests have yet returned a positive result. Further work continues to establish if such testing could become more widely available as the Scottish Government Test and Protect strategy is implemented.

Police Scotland continues to be engaged in discussions about the opportunities to introduce workplace antibody testing should a valid test become available in Scotland.

## **5.9 COVID-19 NEAR MISSES**

Near-miss' forms in the context of the pandemic situation may be submitted for a variety of reasons i.e. when officers are potentially exposed to COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19. This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE.

In the last week we have seen 36 of these forms submitted, which has decreased from last week by around 22%. This is still slightly higher than post COVID-19 levels. The increased number of forms submitted continues to be attributable to the process for requesting an asymptomatic COVID-19 screening test due to an occupational risk requiring the submission of a 'near-miss' form. This week it accounted for approximately 70% of forms tendered. The number of incidents where a lack of PPE is identified has not risen.

## **5.10 CUSTODY**

'Custody volume' refers to the amount of individuals held in Police Scotland custody facilities at a given time. The number of custodies fell on the approach to 'lockdown', reaching their lowest level on 29th March. Since that date, total custody volumes have increased and, in recent weeks have been comparable to pre-COVID business as usual

levels. The organisation is seeing traditional weekend peaks returning which was less noticeable during the early stages of lockdown. COVID custody levels (those custodies purported to have COVID symptoms) have been trending at a slight increase week on week.

#### **5.11 SUBMISSION**

This report is submitted to the SPA for information and consideration.

Appendix A – COVID-19 Weekly Bulletin contains the information which will be released publically by Police Scotland. This information will continue to be released weekly and will synchronise with the weekly SPA reporting for consistent, single data timelines.

OFFICIAL

## Service Centre Demand

### Service Centre Demand

The volume of 101 calls answered has remained at a relatively consistent before increasing towards the end of the reporting period. The volume of 999 calls answered had seen an increase at the weekend and largely differed from levels observed last year.

## Crime Levels

### Crime Volume (19 March – Present compared to Previous Year)

Crime has continued to trend at levels lower than the seasonal average, and total volume year to date is still considerably lower than last year. Total 'Year to Date' volume is displayed below, further data is available in the Crime slide.

## Coronavirus Legislation

### Co-operation with new Coronavirus Legislation

The below chart is indicative of the co-operation levels experienced by Police over the last 7 days. The vast majority of interactions between Police and the public continue to be resolved without enforcement.

## Incident Demand

### Incident Demand

Incident volume this week has remained at a relatively consistent level but shows lower levels compared to the same time last year. This has also seen an increase from the previous week.

## Staff Absence and Welfare

### Absences

Absences are now trending lower when compared to 2019.

### Staff COVID Screening

Testing of key workers for COVID-19 continues and the number of tests arranged for Police Scotland employees is broken down later in this report.

### Total Number of Interactions Relating to Coronavirus Legislation

The below chart is indicative of the total number of FPNs issued and charges labelled since the introduction of the new legislation.

# Weekly Crime Demand (15 June - 21 June 2020)

### Weekly Crime by Group

■ 2019/20 ■ 2020/21

### Weekly Crime by Division

■ 2019/20 ■ 2020/21

Crime Group	1	2	3	4	5	6	7	Total
2019/20	199	234	2351	912	1218	2508	2534	<b>9956</b>
2020/21	162	271	1837	770	1535	2631	1710	<b>8916</b>

Most Crime Groups (with exception of Group 5 and Group 6) show a decrease when the preceding weeks volume is compared to the same period in 2019. Most divisions have noted a decrease in crime volumes, with the exception of Renfrewshire & Inverclyde.

More information regarding Crime Groups can be found [via this link](#)

# Cumulative Crime Demand (9 March – 21 June 2020)

### Total Crime by Group

■ 2019/20 ■ 2020/21

### Total Crime by Division

■ 2019/20 ■ 2020/21

Crime Group	1	2	3	4	5	6	7	Total
2019/20	2678	4087	33198	14292	19566	38908	35404	<b>148133</b>
2020/21	2334	3286	27171	11735	21030	36423	29263	<b>131242</b>

All Crime Groups (with the exception of Group 5) show a decrease in volume when compared to the same period in 2019. Group 5 crime is higher in volume and has increased in the weekly records as mentioned. All Divisions show a decrease in volume when compared to the same time period in 2019.

More information regarding Crime Groups can be found [via this link](#)

# Weekly Coronavirus Legislation Co-operation (18 June – 24 June 2020)

### Weekly Cooperation Levels

### Interaction Totals (Preceding Week)

An 'interaction' is any instance where a Police Officer has reason to engage with a person who is not conforming with Legislation. Only when all efforts to encourage co-operation fail will Police Officers resort to enforcement.

### Weekly Intervention Locations

### Interaction Times (Preceding Week)

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation.

**Due to the manual input required to form this data set, the contents of this slide are indicative only. Actual figures will differ from those recorded on Crime Systems (please see slide 11), may be subject to change, and cannot be considered Official Police Statistics. They do provide an indication of the public co-operation levels across Scotland.**

# Coronavirus Legislation Co-operation (27 March – 24 June 2020)

### All Time Cooperation Levels

### Interaction Totals (All Time)

An 'interaction' is any instance where a Police Officer has reason to engage with a person who is not conforming with Legislation. Only when all efforts to encourage co-operation fail will Police Officers resort to enforcement.

### All Time Intervention Locations

### Interaction Times (All Time)

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation.

**Due to the manual input required to form this data set, the contents of this slide are indicative only. Actual figures will differ from those recorded on Crime Systems (please see slide 11), may be subject to change, and cannot be considered Official Police Statistics. They do provide an indication of the public co-operation levels across Scotland.**

# 'Enforcement' of Coronavirus specific legislation

The following is a summary of all 'enforcement' action in relation to both The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020.

This includes all Fixed Penalty Notices issued and processed by Police Scotland. It also includes all occasions that a charge was libelled and recorded on Police Scotland's Crime Recording System against a person in relation to the aforementioned legislation. This is a true value of the volume of recorded 'enforcement' activity, but does not provide the granularity of the Coronavirus Intervention (CVI) recording system and does not capture the earlier phases of the '4 E's' approach.

These values remain subject to change as offences are retrospectively added or amended and do not match the indicative 'enforcement' values from the CVI recording system.

# Near Miss and Testing Data (w/e 23 March – 22 June 2020)

‘Near miss’ forms in the context of the pandemic situation may be submitted for a variety of reasons. i.e. when officers are potentially exposed to: COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19.

This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE. The number of forms have decreased over the last week.

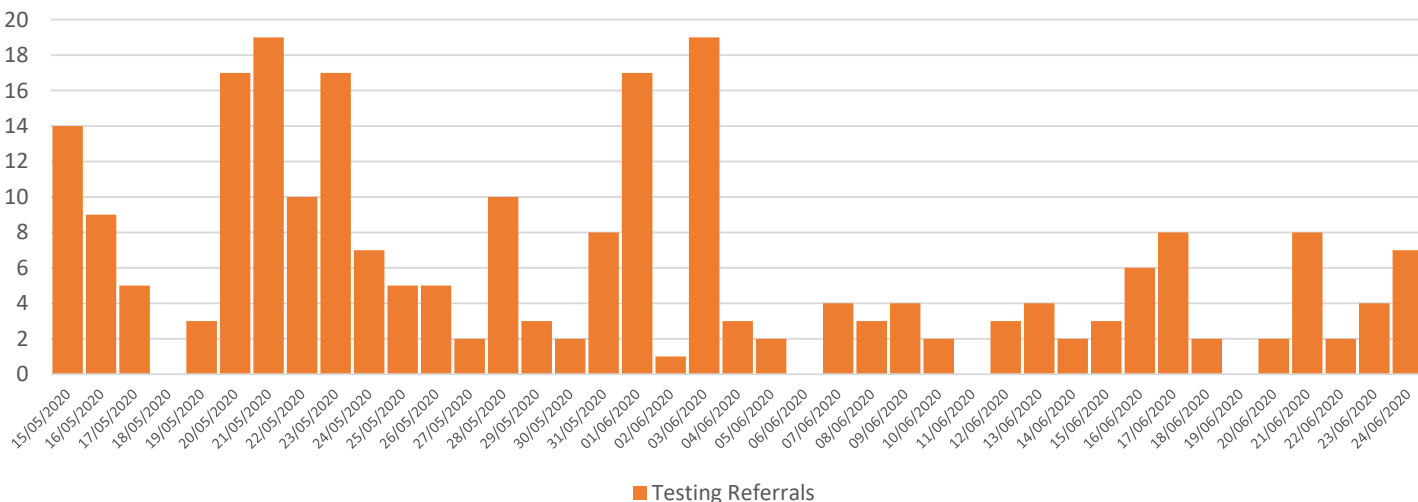

The amount of forms submitted continues to be attributable to the process for requesting an asymptomatic COVID-19 screening test due to an occupational risk, requiring the submission of a ‘near miss’ form. Many of the reports would not have been submitted without this requirement. The number of incidents where a lack of PPE is identified has not risen.

# Testing Data (7 April – 24 June 2020)

### Symptomatic Testing

### Asymptomatic Testing Referrals

### Police Scotland Testing Data

Total Referrals	Tested Positive	Tested Negative	Inconclusive
<b>Symptomatic Testing</b>			
1205	162	959	21
<b>Asymptomatic Testing</b>			
257	0	230	2
<b>Contact Tracing</b>			
3	0	3	0
<b>Other: Locally Arranged Tests</b>			
337	40	294	2

*Locally arranged tests may refer to Divisional arrangements, self arranged tests or those arranged by the NHS.*

# Custody Volume

The below bar chart displays the custody volume in each custody centre weekly. In this chart the blue bar represents the volume over the last 7 days, and the grey bar represents the 7 days prior to that. As can be seen, custody volume has decreased this week when compared to last week.

# Custody Volume

The below line graph displays the total custody volume over time. As can be seen, the number of custodies fell on the approach to 'lockdown', reaching their lowest level on 29<sup>th</sup> March. Since that date Custodies have steadily increased.
