## 5.1 CURRENT LANDSCAPE

Scotland continues to operate under the level or tiered system approach, which includes enforceable travel regulations for those local authorities subject to level 3 and 4 restrictions. All of mainland Scotland remains under lockdown.

On 3 February, it was also announced that 'managed quarantine' will be introduced for all international travellers to Scotland whereby they would be required to isolate within a designated hotel for 10 days immediately upon arrival in Scotland.

This will now have effect from 15<sup>th</sup> February, whereby all air arrivals to Scotland from countries outside the Common Travel Area will be required to quarantine.

Six hotels close to Aberdeen, Edinburgh and Glasgow with a combined capacity of 1,300 rooms have been identified, at a cost of £1,750 per traveller, which will be paid by the individual.

As regulations to support the introduction of managed isolation are developed a range of offences and penalties to help ensure compliance will be considered by the Scottish Government.

Police Scotland will continue to monitor these events in order to assess an appropriate level of ongoing response.

Coronavirus is still having an impact on absence levels across the organisation; however, they continue to be internally managed by each local policing division. Absence levels and trends are still monitored closely in order to mitigate risk and address any emerging resourcing demands in early course. Police Scotland's Outbreak Management Team (OMT) remains in place, providing an internal 'track and trace' function and advice to police officers and staff, as well as engaging with divisions to assist in limiting any spread of coronavirus throughout the organisation. Learning opportunities from previous outbreaks are being identified and collated by the team and these will be communicated across all divisions and departments.

Whilst increased restrictions are in place, including travel restrictions between local authority areas, Police Scotland's approach remains unchanged and continues to promote 'Engage, Explain and Encourage' methods prior to 'Enforcement' action being taken against apparent breaches of legislation. It remains the position that officers may move more quickly through the 4E process if they perceive that persons are engaging in a blatant, conscious and inexcusable breach of regulations, involving repeat locations or individuals and whether an absence of enforcement would damage public confidence in policing.

## **5.2 SERVICE CENTRE DEMAND**

This week, the volume of 101 calls answered has decreased by 5% comparable to last week's figure, and the volume of 999 calls has increased by 15%. 101 calls answered this year are 8% lower compared to the same week last year whilst 999 calls remain significantly lower (17%).

## **5.3 INCIDENT DEMAND**

Total incident volume has increased by 2% from last week's figure and have reduced by 9% when compared to the same dates in 2020.

In comparison to the same period last year, Public Nuisance incidents have increased by 179%, while noise incidents have increased by 17%. Disturbance incidents have decreased by 26%. In comparison to last week, public nuisance incidents and noise incidents have decreased by 10% and 14% respectively while disturbance incidents have also decreased, by 6%.

## **5.4 CRIME**

Overall crime in the last week is at a lower level than a comparable period last year. All thirteen police divisions have experienced lower crime volume than the same period last year.

The collective volume of recorded crimes for most crime groups is lower when compared to last year, with only Group 5 crimes having risen slightly. The cumulative crime demand for year 2020/21 in every division is lower when compared to 2019/20.

## **5.5 COVID-19 INTERVENTION ACTIVITY**

As stated above, Police Scotland's approach to the use of COVID-19 legislation remains to firstly engage with people, explain the provisions and encourage them to comply with the necessary restrictions, with enforcement action being taken where there are found to be flagrant and blatant breaches of legislation.

Incidents requiring COVID-19 interventions by officers have decreased from 371 last week to 325 this week. The total number of persons involved in these interventions has decreased from 1843 last week to 1704 this week, a decrease of 7.5%. 1032 (60.5%) of the 1704 interventions this week to place in a private dwelling, which is comparable to last week's figure. Figures for this week accurate as at 11 February 2021.

Since quarantine regulations came into force on travellers entering Scotland from out with the UK on the 15 June, up to and including 3 February 2021, Police Scotland have received 3742 referrals from Public Health Scotland (PHS) relating to potential breaches of quarantine, 751 of which were dealt with by the resolution team and 639 of which have been dealt with by local policing. 2352 referrals were weeded prior to an incident being raised. In respect of resolved referrals, 71% of the foreign travellers were found to be

complying with quarantine restrictions. In the majority of the remaining referrals, the travellers have been untraced due to a variety of reasons such as inaccurate data provided to PHS or the expiration of the quarantine period prior to persons being traced.

There have been 16 occasions where enforcement has been used in relation to breaches of quarantine regulations generated from Home Office or Public Health Scotland referrals and one report to the Crown Office and Procurator Fiscal Service (COPFS).

## **5.6 ABSENCE**

General employee absence levels have remained fairly consistent over the last week. Divisions and departments are currently coping locally with outbreaks and contact/tracing requirements; however, this is being monitored carefully. Absences related specifically to COVID-19 have decreased slightly, with **322** people absent, as of 10 February, down from 327 last week.

## **5.7 OUTBREAK MANAGEMENT TEAM**

Police Scotland's Outbreak Management Team (OMT) respond to and investigate positive cases amongst officers and staff and work in conjunction with the national NHS Test & Protect network to arrive at proportionate, balanced decisions on the identification of individuals at risk after close contact with a positive case and any requirement for self-isolation. This, following consideration of all operational circumstances, the use of PPE and other safety measures, has enabled the safe retention of officers and staff in the workplace and the self-isolation of those agreed to be at heightened risk. The team's work will continue to capture information and the circumstances in respect of specific outbreaks in order that procedures can be reviewed and additional safety measures cascaded and implemented as required.

From inception until 10 February 2021, the OMT has reviewed 756 cases and, from these, 1094 individuals have tested positive for COVID-19. The work of the OMT has led them to trace 1122 individuals who have required to isolate, whilst the NHS has traced 240 individuals. On average, each case leads to 3.4 absences. The work of the OMT has also led to the identification of 73 individuals who had initially been required to self-isolate and were able to return to work.

## **5.8 COVID-19 NEAR MISSES**

'Near miss' forms in the context of the pandemic situation may be submitted for a variety of reasons e.g. when officers are potentially exposed to COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19. This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE.

The most current 'near miss' figures available for the dates 2 January until 8 February 2021 confirm that **92** forms were submitted. This has increased from the 56 forms last week but is more in line with preceding week's figures.

## 5.9 GATHERINGS IN PRIVATE DWELLINGS

Scottish Government commissioned data suggests that spread in and between households continues to drive much of the transmission of COVID-19. This analysis has guided the decision to introduce national measures to prevent persons visiting other households in higher risk areas.

Police Scotland have undertaken an assessment of the demand posed by dwelling house gatherings. It should be noted that the methodology of counting of house gatherings is designed to quantify the number of times officers have had to enter a private dwelling or private garden to investigate suspected breach of legislation or guidance, due to the increased risks of COVID transmission associated with these environments; therefore, if officers do not physically attend, or indeed gain entry to the dwelling or garden, this will not be included as a house gathering as there is no evidence there has been one and no increased risk to officers. Information gathered is indicative and should not be considered official police statistics.

Indicative figures from the week of 4 January until 10 February 2021, suggest that Police Scotland attended over **454** occurrences of house gatherings throughout the force area, an increase of 100 from last week (18%). Enforcement levels have decreased from 410 FPNs and 22 arrests last week, to **385** FPNs and **37** arrests this week.

Notable incidents over the past week include:

**Edinburgh (05/02/21)** - Report of party ongoing at an 'Airbnb' flat. Police attended and 8 persons found within. All 8 admitted to having attended at the flat for the purpose of having a party and were issued FPNs They all exited the flat to return to their own addresses in the North West area of the city (mainly residing in Drylaw).

**Lothians & Scottish Borders (06/02/21)** - Report of house party in breach of COVID-19 guidelines and that this is a weekly occurrence. Officers attended at the front and rear of the property and a number of persons tried to exit via the rear but were stopped. A total of 10 persons were found within, 3 that reside at the locus and 7 others from separate households. The occupier admitted that more persons had been at the address prior to Police attending. All of those not residing at the address were warned and removed from the property. The occupier (issued with a Covid FPN in October 2020 and had a house party emptied on 15/01/2021) was charged with Culpable & Reckless Conduct given their attitude and continued behaviour flouting the current restrictions.

**Renfrewshire & Inverclyde (09/02/21)** - Report of loud 'aggressive' noise from within locus. Police attended and found 12 persons within, none of whom resided there. 9 of the occupants issued FPNs. 3 occupants were 17 years old. All dispersed. 1 of the 17 year old was arrested nearby a short time later for attempting to vandalise a Police vehicle, threatening behaviour and resisting arrest.

**Greater Glasgow (09/02/21)** - Police called to report of party at locus. On arrival, sound of loud music and voices. Despite repeated attempts, householder refused to answer door. Entry forced and 3 persons were found within including householder, all issued with FPNs. 2 visitors dispersed.

## 5.10 TRAVEL REGULATIONS

At 1800 hours on Friday 20 November 2020, legislative travel restrictions were introduced across local authorities subject to levels 3 and 4 restrictions. The following data comprises travel regulations interventions from 4 until 10 February 2021 inclusive.

Police Scotland has carried out 154 interventions and issued 58 FPN in respect of travel regulations within the time frame, compared to the 225 interventions and 79 FPN recorded last week.

Notable incidents during this period include:

**Argyll & West Dunbartonshire (05/02/21)** - 6 persons found within their holiday home for a 21<sup>st</sup> birthday celebration. All issued FPNs and dispersed back to their home address in Glasgow.

**Ayrshire (09/02/21)** - Report of persons stuck at top of steep hill after hill walking. Managed to find their way back to the path and return to their vehicle. Police assisted via telephone to guide them back to safety and met the party at their parked vehicle. Enquiries revealed persons had travelled from Paisley area and this was deemed non-essential travel. FPNs issued

**Highland & Islands (09/02/21)** - Male stopped during patrols. It was established he had travelled up from Midlothian area to visit family and for recreation. Encouraged to leave the area but did not accept Police advice. FPN issued.

**Lanarkshire (08/02/21)** - Report received from The Westerwood Hotel, Cumbernauld to advise of residents who had travelled from Fraserburgh. Police attended resulting in 2 persons being arrested for drug supply offences and 5 Covid FPNs issued.

# Weekly Legislation Co-operation (4<sup>th</sup> – 10<sup>th</sup> February 2021)

### Weekly Cooperation Levels

An 'interaction' is any instance where a Police Officer has reason to engage with a person who is not conforming with Legislation. Only when all efforts to encourage co-operation fail will Police Officers resort to enforcement.

### Weekly Intervention Locations

### Interaction Times (Preceding Week)

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation. This slide includes all offence types – Face-Coverings, Quarantine, Travel Restrictions and Gatherings.

## 'Enforcement' of Coronavirus specific legislation

The following is a summary of all 'enforcement' action in relation to both The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020.

This includes all Fixed Penalty Notices issued and processed by Police Scotland. It also includes all occasions that a charge was libelled and recorded on Police Scotland's Crime Recording System against a person in relation to the aforementioned legislation. This is a true value of the volume of recorded 'enforcement' activity, but does not provide the granularity of the Coronavirus Intervention (CVI) recording system and does not capture the earlier phases of the '4 E's' approach.

These values remain subject to change as offences are retrospectively added or amended and do not match the indicative 'enforcement' values from the CVI recording system.

## Near Miss and Testing Data (w/e 23<sup>rd</sup> March – 8<sup>th</sup> February 2021)

'Near miss' forms in the context of the pandemic situation may be submitted for a variety of reasons. i.e. when officers are potentially exposed to: COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19.

This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE. This number of 'Near Miss' weekly submissions is up from last week.

The amount of forms submitted continues to be attributable to the process for requesting an asymptomatic COVID-19 screening test due to an occupational risk, requiring the submission of a 'near miss' form. Many of the reports would not have been submitted without this requirement. The number of incidents where a lack of PPE is identified has not risen.
