			EXECUTIVE	SUMMARY								
1.	Purpose											
1.1	This paper provides the Scottish Police Authority (SPA) with a weekly update on policing changes seen during Operation TALLA, Police Scotland's COVID-19 response.											
	This report contains the preceding week's information and data on changing demands within the service centre, incident attendance and crime. It will also consider our COVID-19 response including our use of the emergency legislation and how we are assisting our officers and staff welfare throughout these challenging times. This update will have a reporting period of Thursday to Wednesday. For the purpose of this report, the week of Thursday 1 April to Wednesday 7 April 2021 is considered.											
2.	Decision	Requeste	d									
2.1	N/A											
3.	Recommo	endation										
3.1	N/A											
4.	Alignmen	t to Police	Scotland Strategic	Outcomes

It to our people (SO4). To ur communities from rs, such as this, and	e to the challenges posed by further highlights the activities he levels of intervention activity m COVID-19 (SO1, SO2). The d those published on the Police maintain trust and confidence							

5. Main Report

5.1 CURRENT LANDSCAPE

Scotland continues to operate under the level or tiered system approach, which includes enforceable travel regulations for those local authorities subject to level 3 and 4 restrictions. All of mainland Scotland remains under lockdown.

On 1 April 2021 **2,493,327** people had received their first dose of the vaccine and **399,062** had received their second.

On 7 April 2021 **2,593,932** people had received their first dose of the vaccine and **479,239** had received their second. That is an increase of **100,605** and **80,177** respectively.

Coronavirus is still having an impact on absence levels across the organisation; however, they continue to be internally managed by each local policing division. Absence levels and trends are still monitored closely in order to mitigate risk and address any emerging resourcing demands in early course. Police Scotland's Outbreak Management Team (OMT) remains in place, providing an internal 'track and trace' function and advice to police officers and staff, as well as engaging with divisions to assist in limiting any spread of coronavirus throughout the organisation. Learning opportunities from previous outbreaks are being identified and collated by the team and these will be communicated across all divisions and departments.

Whilst increased restrictions are in place, including travel restrictions between local authority areas, Police Scotland's approach remains unchanged and continues to promote 'Engage, Explain and Encourage' methods prior to 'Enforcement' action being taken against apparent breaches of legislation. It remains the position that officers may move more quickly through the 4E process if they perceive that persons are engaging in a blatant, conscious and inexcusable breach of regulations, involving repeat locations or individuals and whether an absence of enforcement would damage public confidence in policing.

5.2 SERVICE CENTRE DEMAND

This week, the volume of 101 calls answered has increased by **6%** comparable to last week's figure and the volume of 999 calls has increased by **18%**. The number of 101 calls is lower than the same period in 2020 (-9%) and 2019 (-18%). The number of 999 calls is higher than the same period in 2020 (35%) and also higher than 2019 (16%).

5.3 INCIDENT DEMAND

Total incident volume has increased by **10%** from last week's. Total incident volume has increased by **9%** on the same week in 2020, and decreased by **4%** in 2019.

In comparison to the same week in 2020, Public Nuisance incidents have decreased by **23%**, and have increased by **164%** when compared to the same week in 2019.

In comparison to the same week in 2020 Noise incidents have decreased by **30%**, and have also decreased by **12%** when compared to the same week in 2019.

In comparison to the same week in 2020, Disturbance incidents are at similar levels, and have decreased by **11%** when compared to the same week in 2019.

In comparison to last week, public nuisance incidents and noise incidents have increased by **40**% and **7**% respectively, whilst disturbance incidents have decreased by **7**%.

5.4 CRIME

Overall crime in the last week is at a higher level than a comparable period last year, however it remains lower than a comparable week pre-lockdown. Most divisions (with the exception of Edinburgh City and The Lothians & Scottish Borders) have noted an increase in crime volumes this week when compared to the same period from 2020/21.

Most divisions (with the exception of North East Scotland, Tayside and Fife) have noted a decrease in crime volumes this week when compared to the same period from 2019/20.

The collective volume of recorded crimes for every crime groups is higher when compared to the previous year. All crime groups (with the exception of crime groups 1 and 5) remain lower than the same week in 2019/20.

5.5 COVID-19 INTERVENTION ACTIVITY

As stated above, Police Scotland's approach to the use of COVID-19 legislation remains to firstly engage with people, explain the provisions and encourage them to comply with the necessary restrictions, with enforcement action being taken where there are found to be flagrant and blatant breaches of legislation.

Incidents requiring COVID-19 interventions by officers have decreased from **342** last week to **261** this week **(-24%)**. The total number of persons involved in these interventions has increased from **2007** last week to **7166** this week. **1399 (20%)** of the **7166** interventions this week took place in a private dwelling. This is a decrease on the previous week's **59%**. Figures for this week are accurate as at 7th April 2021.

During the reporting period, officers have attended a number of outdoor gatherings involving a significant amount of persons in attendance which has resulted in a substantial increase in intervention activity.

Since quarantine regulations came into force on travellers entering Scotland from out with the UK on the 15 June 2020, up to and including 7 April 2021, Police Scotland have received **4525** referrals from Public Health Scotland (PHS) relating to potential breaches of quarantine. **826** of these were dealt with by the resolution team and **785** have been dealt with by local policing. **2913** referrals were weeded prior to an incident being raised. In respect of resolved referrals, **80%** of the foreign travellers were found to be complying with quarantine restrictions. In the majority of the remaining referrals, the travellers have been untraced due to a variety of reasons such as inaccurate data provided to PHS or the expiration of the quarantine period prior to persons being traced.

There have been **17** occasions where enforcement has been used in relation to breaches of quarantine regulations generated from Home Office or Public Health Scotland referrals and one report to the Crown Office and Procurator Fiscal Service (COPFS).

5.6 ABSENCE

General employee absence levels have remained fairly consistent over the last week. Divisions and departments are currently coping locally with outbreaks and contact/tracing requirements; however, this is being monitored carefully. Absences related specifically to COVID-19 have decreased, with **219** people absent, as of 7 April 2021, which is lower than last week's figure of **287**.

5.7 OUTBREAK MANAGEMENT TEAM

Police Scotland's Outbreak Management Team (OMT) respond to and investigate positive cases amongst officers and staff and work in conjunction with the national NHS Test & Protect network to arrive at proportionate, balanced decisions on the identification of individuals at risk after close contact with a positive case and any requirement for self-isolation. This, following consideration of all operational circumstances, the use of PPE and other safety measures, has enabled the safe retention of officers and staff in the workplace and the self-isolation of those agreed to be at heightened risk. The team's work will continue to capture information and the circumstances in respect of specific outbreaks in order that procedures can be reviewed and additional safety measures cascaded and implemented as required.

From inception until 7 April 2021, the OMT has reviewed **891** cases and, from these, **1388** individuals have tested positive for COVID-19. The work of the OMT has led them to trace **1408** individuals who have required to isolate, whilst the NHS has traced **247** individuals. On average, each case continues to lead to **3.5** absences. The work of the OMT has also led to the identification of **145** individuals who had initially been required to self-isolate and were able to return to work.

5.8 COVID-19 NEAR MISSES

'Near miss' forms in the context of the pandemic situation may be submitted for a variety of reasons e.g. when officers are potentially exposed to COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19. This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE.

The most current 'near miss' figures available for the dates 30 March until 5 April 2021 confirm that **26** forms were submitted. This is an increase of **4%** from the **25** forms last week.

5.9 GATHERINGS IN PRIVATE DWELLINGS

Scottish Government commissioned data suggests that spread in and between households continues to drive much of the transmission of COVID-19. This analysis has guided the decision to introduce national measures to prevent persons visiting other households in higher risk areas.

Police Scotland have undertaken an assessment of the demand posed by dwelling house gatherings. It should be noted that the methodology of counting of house gatherings is designed to quantify the number of times officers have had to enter a private dwelling or private garden to investigate suspected breach of legislation or guidance, due to the increased risks of COVID transmission associated with these environments; therefore, if officers do not physically attend, or indeed gain entry to the dwelling or garden, this will not be included as a house gathering as there is no evidence there has been one and no increased risk to officers. Information gathered is indicative and should not be considered official police statistics.

Indicative figures from the week of 1 April until 7 April 2021, suggest that Police Scotland attended **330** occurrences of house gatherings throughout the force area, an increase of **55** from last week **(20%)**. Enforcement levels for FPNs were **375** which was the same as last week. Arrests have decreased from **14** to **4** over the same period.

5.10 TRAVEL REGULATIONS

At 1800 hours on Friday 20 November 2020, legislative travel restrictions were introduced across local authorities subject to levels 3 and 4 restrictions. The following data comprises travel regulations interventions from 1 April until 7 April 2021 inclusive.

Police Scotland has carried out **426** interventions and issued **51** FPNs in respect of travel regulations within the time frame, compared to the **100** interventions and **12** FPNs recorded last week.

5.11 SUBMISSION

This report is submitted to the SPA for information and consideration.

Appendix A – COVID-19 Weekly Bulletin contains the information which will be released publically by Police Scotland. This information will continue to be released weekly and will synchronise with the weekly SPA reporting for consistent single data timelines.

COVID-19 WEEKLY BULLETIN 1st April – 7th April 2021

SERVING A
CHANGING SCOTLAND

SCOTTISH POLICE AUTHORITY

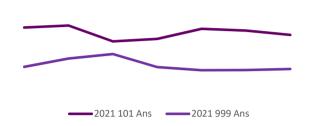

No figures should be considered as Official Police Statistics. These may not yet have been verified or validated.

OFFICIAL

Service Centre Demand

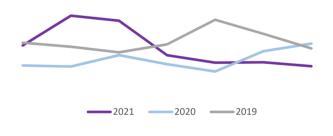

The volume of 101 calls answered decreased on 3th and 4th April and were at consistent levels for the rest of the week.

The volume of 999 calls answered peaked on the 2nd and 3rd April and were at consistent levels for the rest of the week.

Incident Demand

Incident volume throughout the last week was approximately 9% higher when compared to the same time last year and 4% lower when compared to the same period in 2019.

Gatherings in Private Dwellings

From 28/08/2020 - 07/04/2021

12549 Attended reports of House Party

7397 House Parties Dispersed

Crime

Crime Volume (9 March – Present compared to Previous Year)

Crime has continued to trend at levels slightly higher than the seasonal average, and total crime volume year to date is higher (14%) than last year.

Crime Group Breakdown Change from previous year													
Group 1	Group 2	Group 3	Group 4	Group 5									
18%	31%	0%	2%	25%									

20547 Offences under COVID Legislation

Recorded COVID Charges are pulled from Police Scotland CRIME systems rather than CVI. Enforcement activity includes Fixed Penalty Notices and offences recorded on Police Scotland's Crime Recording System

Absence

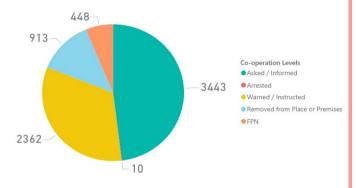

Absences throughout the week have remained relatively static however continue to trend below levels when compared to 2020 and above levels when compared to 2019. Absences remain significantly below the peak in April 2020.

Coronavirus Legislation

Co-operation with new Coronavirus Legislation

The below chart is indicative of the co-operation levels experienced by police over the last 7 days. The majority of interactions between police and the public continue to be resolved without enforcement.

Quarantine Referrals to 7th April

Public Health Scotland Travel Regs. Referrals	4525
Investigated by Resolution Team	826
Investigated by Local Policing	785
Investigations Ongoing	1
Weeded prior to investigation	2913

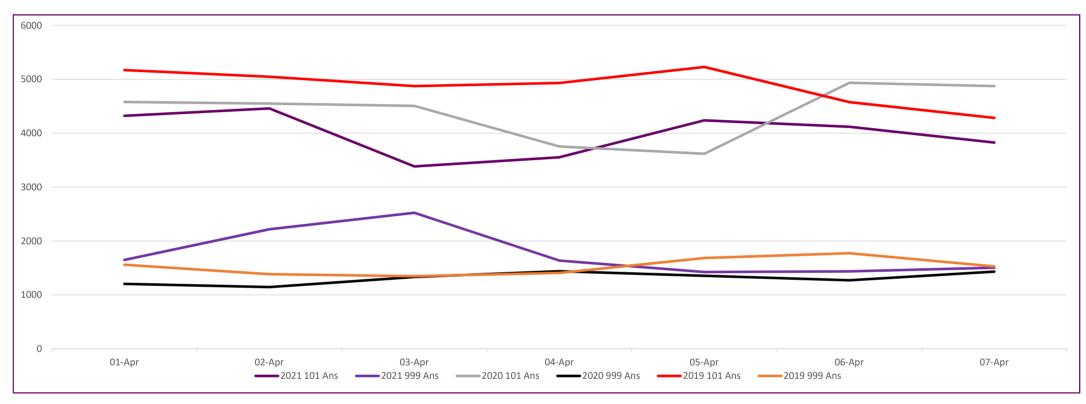

Travel Reg. offences resulting in FPN or SPR 17

Note: The referral figures are a count of reports submitted to Police Scotland. These will therefore vary from counts of the number of individuals.

FPNs may be derived from PHS, Home Office Referrals or from operational incidents.

Weekly Service Centre Demand (1st April – 7th April 2021)

	01-Apr	02-Apr	03-Apr	04-Apr	05-Apr	06-Apr	07-Apr	Total

Incident Demand – House Gatherings (28th August 2020 – 7th April 2021)

From Friday 28th August 2020, additional monitoring of 'house gathering' incidents has taken place. This will be reported weekly going forward.

Attended 'House Gathering' Incidents

Attended 'House Gathering' Breaching Restrictions

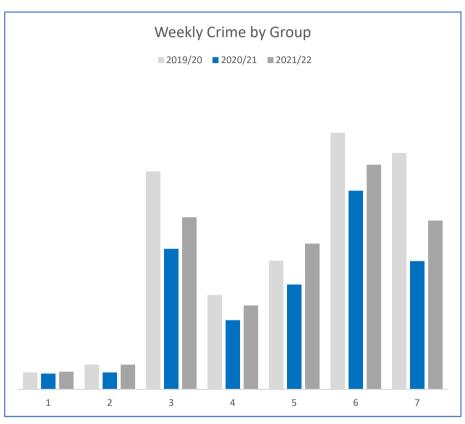

Totals	28 Aug – 7 Apr	1 Apr – 7 Apr
No. of House Gatherings Attended	12549	330
No. of House Gatherings Breaching Restrictions	7397	201
No. of FPNs issued	9272	375
No. of Arrests	470	4

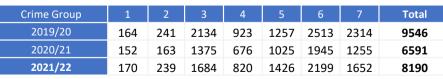

The figures contained within this slide originate from storm incident reviews and free-text local policing returns to provide the most comprehensive view of house gatherings possible.

Note: No figures should be considered as Official Police Statistics. These may not yet have been verified or validated.

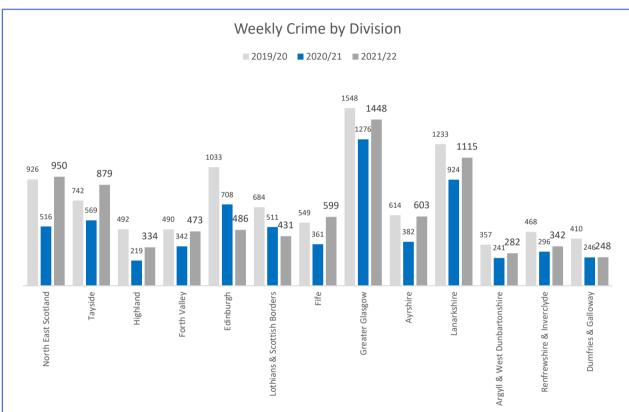

Weekly Crime Demand (29th March – 4th April 2021)

More information regarding Crime Groups can be found via this link

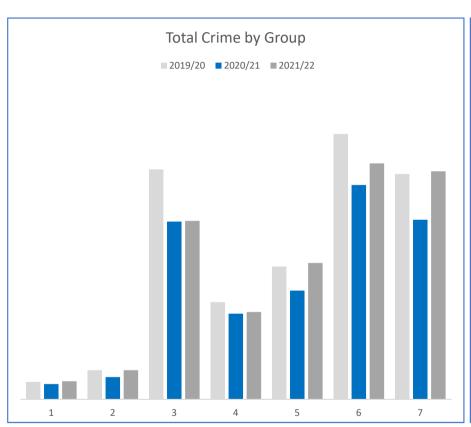

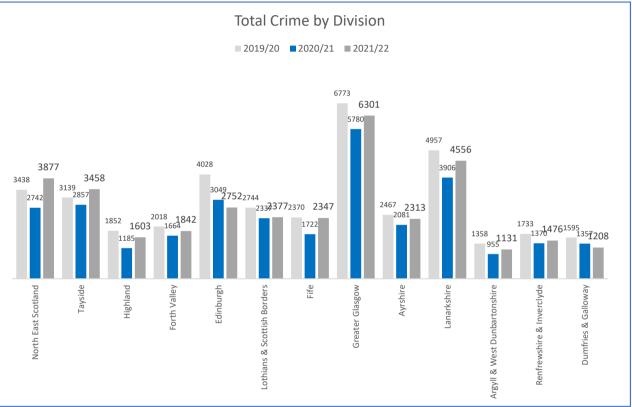

All Crime Groups show an increase when compared against the same period last year. All Crime Groups show a decrease in volume when compared to the same period 2019/20 with the exception of Group 1 & 5

Most divisions (with the exception of Edinburgh City and Lothians & Scottish Borders Divisions) have noted an increase in crime volumes this week when compared to the same period last year. Most divisions (with the exception of North East, Tayside and Fife) have seen a decrease in volume when compared to the same period 2019/20.

Cumulative Crime Demand (16th March 2020 – 4th April 2021)

Crime Group	1	2	3	4	5	6	7	Total
2019/20	675	1128	8870	3752	5124	10233	8690	38472
2020/21	593	860	6856	3306	4195	8268	6927	31005
2021/22	701	1127	6886	3371	5260	9100	8796	35241

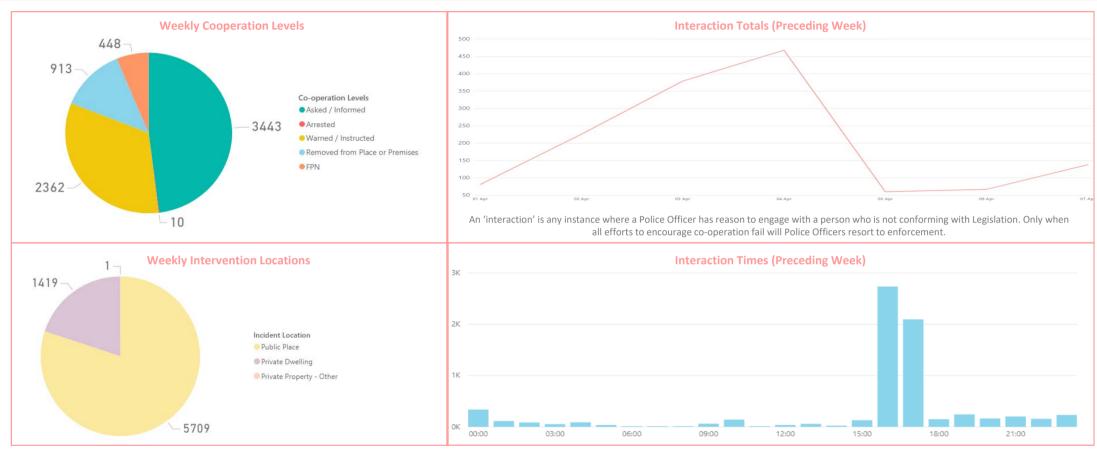

More information regarding Crime Groups can be found via this link

All crime groups show an increase in volume when compared to the same period last year, all crime groups (with the exception of Group 1, 5 & 7) show a decrease compared to 2019/20.

Most divisions (excluding Edinburgh City and Dumfries & Galloway Divisions) show a cumulative increase in volume when compared to the same period last year. Most divisions (excluding North East Scotland and Tayside) continue to show a cumulative decrease in volume when compared to 2019/20

Weekly Legislation Co-operation (1st April – 7th April 2021)

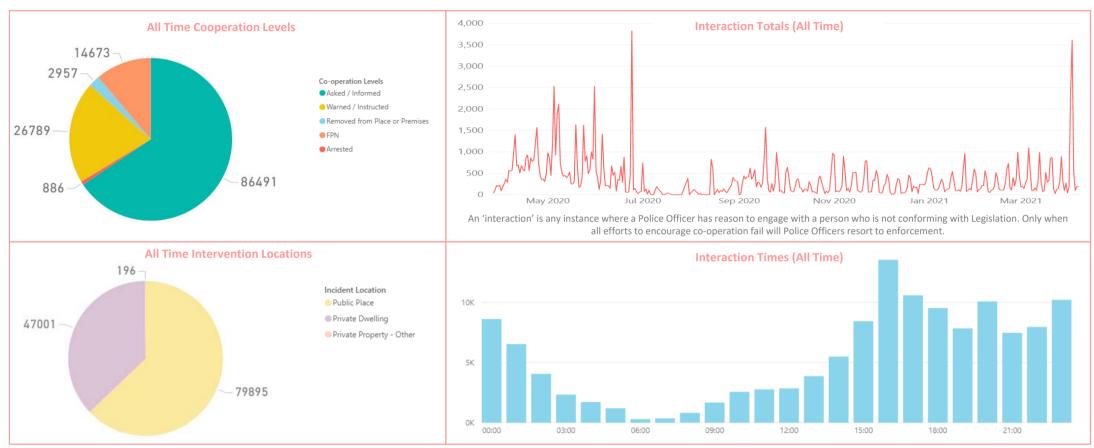

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation. This slide includes all offence types

— Face-Coverings, Quarantine, Travel Restrictions and Gatherings.

Due to the manual input required to form this data set, the contents of this slide are indicative only. Actual figures will differ from those recorded on Crime Systems (please see slide 11), may be subject to change, and cannot be considered Official Police Statistics. They do provide an indication of the public co-operation levels across Scotland.

Coronavirus Legislation Co-operation (27th March 2020 – 7th April 2021)

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation. This slide includes all offence types

— Face-Coverings, Quarantine, Travel Restrictions and Gatherings.

Due to the manual input required to form this data set, the contents of this slide are indicative only. Actual figures will differ from those recorded on Crime Systems (please see slide 11), may be subject to change, and cannot be considered Official Police Statistics. They do provide an indication of the public co-operation levels across Scotland.

Weekly Travel Regulation Co-operation (1st April – 7th April 2021)

In order to report upon policing interventions in respect of the newly introduced Travel Regulations regarding travel to or from tiers 3 and 4, the CVI system has been updated. The above data is a sub-set of the wider CVI interventions reported on the previous slides and should not be considered as 'in addition to' the previous overall CVI activity slides.

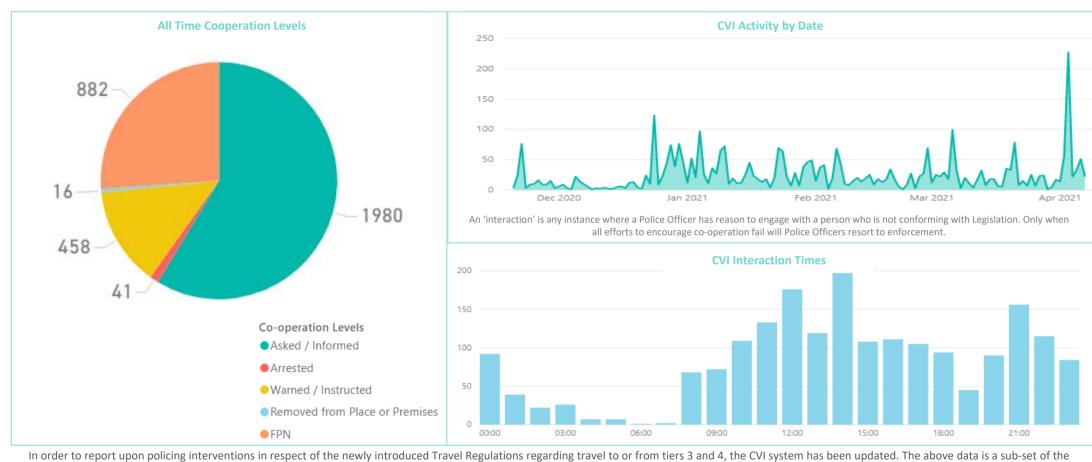

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation.

Due to the manual input required to form this data set, the contents of this slide are indicative only. Actual figures will differ from those recorded on Crime Systems (please see slide 11), may be subject to change, and cannot be considered Official Police Statistics. They do provide an indication of the public co-operation levels across Scotland.

No figures should be considered as Official Police Statistics. These may not yet have been verified or validated.

Travel Regulation Co-operation (20th November 2020 – 7 April 2021)

In order to report upon policing interventions in respect of the newly introduced Travel Regulations regarding travel to or from tiers 3 and 4, the CVI system has been updated. The above data is a sub-set of the wider CVI interventions reported on the previous slides and should not be considered as 'in addition to' the previous overall CVI activity slides.

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation.

Due to the manual input required to form this data set, the contents of this slide are indicative only. Actual figures will differ from those recorded on Crime Systems (please see slide 11), may be subject to change, and cannot be considered Official Police Statistics. They do provide an indication of the public co-operation levels across Scotland.

No figures should be considered as Official Police Statistics. These may not yet have been verified or validated.

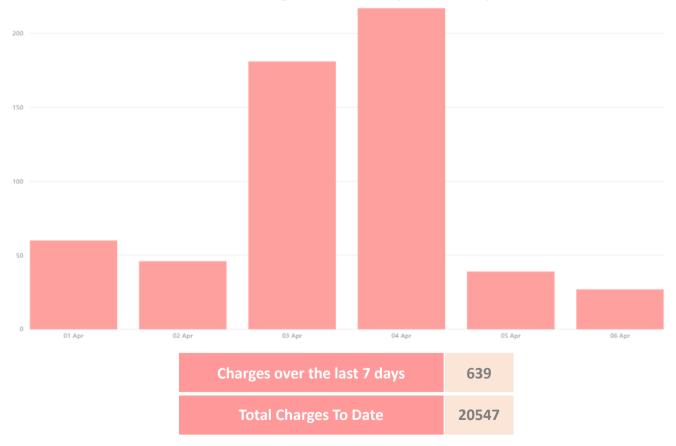

'Enforcement' of Coronavirus specific legislation

The following is a summary of all 'enforcement' action in relation to both The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020.

This includes all Fixed Penalty Notices issued and processed by Police Scotland. It also includes all occasions that a charge was libelled and recorded on Police Scotland's Crime Recording System against a person in relation to the aforementioned legislation. This is a true value of the volume of recorded 'enforcement' activity, but does not provide the granularity of the Coronavirus Intervention (CVI) recording system and does not capture the earlier phases of the '4 E's' approach.

These values remain subject to change as offences are retrospectively added or amended and do not match the indicative 'enforcement' values from the CVI recording system.

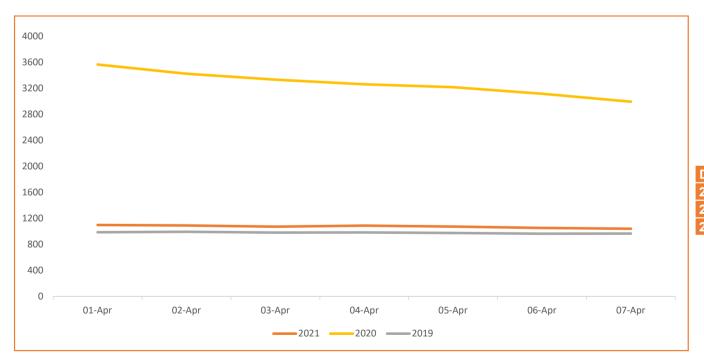

ABSENCE

	Police Scotland Absences (1st April – 7th April 2021)													
7 April 2021	No.	Change from same day previous week	Change from same day previous week (%)

Total Absence Levels Line Graph – Comparison of this year to previous two years.

Near Miss and Testing Data (w/e 23rd March 2020 - 5th April 2021)

'Near miss' forms in the context of the pandemic situation may be submitted for a variety of reasons. i.e. when officers are potentially exposed to: COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19.

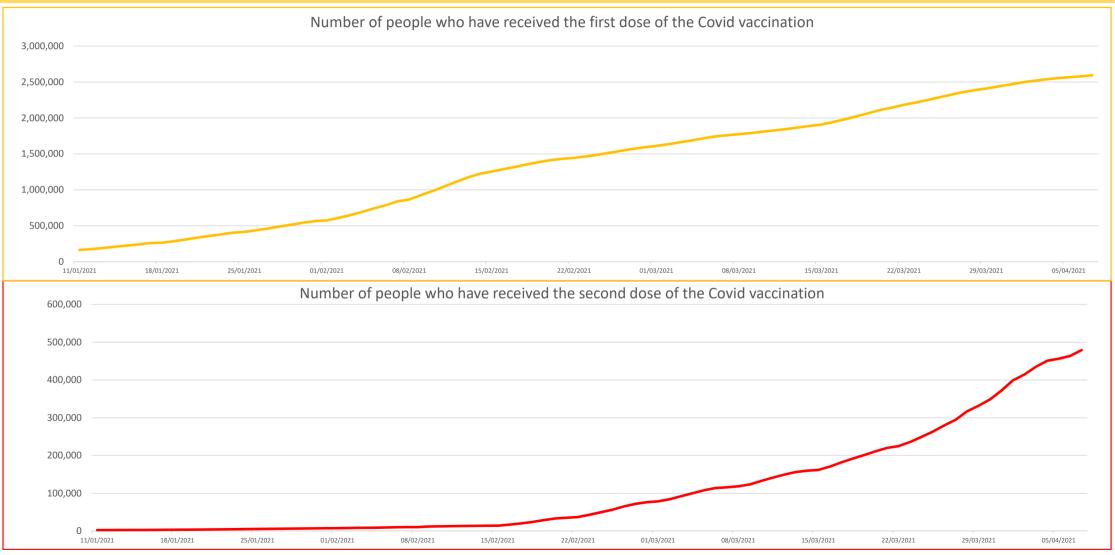

This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE. This number of 'Near Miss' weekly submissions is up slightly from last week.

The amount of forms submitted continues to be attributable to the process for requesting an asymptomatic COVID-19 screening test due to an occupational risk, requiring the submission of a 'near miss' form. Many of the reports would not have been submitted without this requirement. The number of incidents where a lack of PPE is identified has not risen.

No figures should be considered as Official Police Statistics. These may not yet have been verified or validated.
