			EXECUTIVE SUMMARY												
1.	Purpose														
1.1	This paper provides the Scottish Police Authority (SPA) with a weekly update on policing changes seen during Operation TALLA, Police Scotland's COVID-19 response.														
	This report contains the preceding week's information and data on changing demands within the service centre, incident attendance and crime. It will also consider our COVID-19 response including our use of the emergency legislation and how we are assisting our officers and staff welfare throughout these challenging times. This update will have a reporting period of Thursday to Wednesday. For the purpose of this report, the week of Thursday 20 May to Wednesday 26 May 2021 is considered.

5.1 CURRENT LANDSCAPE

Scotland continues to operate under the level or tiered system approach. All parts of the country moved to Level 3 on Monday 26 April 2021. Travel within Scotland for outdoor socialising, recreation and exercise has been permitted since Friday 16 April 2021. The remaining travel restrictions within Scotland have also now been lifted and travel within the UK is now permitted for any purpose.

This easing of restrictions has been brought forward as data shows continued progress on vaccination against Coronavirus (COVID-19) and suppression of the virus. The First Minister; however, continued to urged caution as the latest easing was confirmed. She emphasised that people should take care to plan ahead with journeys, following the FACTS advice when out and about, in order to protect against resurgence of the virus.

On 20 May 2021 **3,063,648** people had received their first dose of the vaccine and **1,742,072** had received their second.

On 26 May 2021, **3,155,733** people had received their first dose of the vaccine and **1,913,809** had received their second. That is an increase of **92,085** and **171,737** respectively.

Outdoor meetings in groups of up to six adults from up to six households have been legitimate from Friday 16 April 2021, with under-12s not counting towards this limit.

Since Monday 26 April 2021, hospitality venues such as cafés, pubs and restaurants have been permitted to reopen, along with tourist accommodation. Non-essential retail outlets and close contact services such as beauty salons can also now reopen, in addition to indoor attractions and public buildings such as galleries, museums and libraries.

From Monday 17 May 2021, all of Mainland Scotland with the exception of Glasgow City and Moray moved to level 2. Glasgow City currently remains at level 3 due to the number of cases. Western, Shetland, Orkney, Highland islands (not Skye), Inner Hebrides and Argyll Islands have moved to level 1.

Travel is allowed both within Scotland and between Scotland and England, Wales, Northern Ireland, the Channel Islands, and the Isle of Man – with the exception of any areas of Scotland in Level 3 or Level 4, currently only Glasgow City. No areas of Scotland are currently in Level 4.

In Levels 0, 1 and 2 you must not travel to an area in Level 3 or 4 except for a permitted reason.

In Levels 3 and 4 you must not leave your area except for a permitted reason.

International travel to Green list countries but no travelling to Amber or Red list countries for leisure. Caution is urged if travelling.

Since 17 May 2021 private Indoor socialising is now permitted for 6 people from up to 3 households. Hugging will also be permitted.

Hospitality has also resumed and alcohol can be served indoors until 2230 hours.

Adult outdoor contact sport has resumed. Events can also resume with 100 indoors, 500 outdoors seated, 250 outdoors free standing (exemptions can be applied for by organisers for greater numbers).

It has been recommended that holidays are taken in the UK rather than internationally.

Coronavirus is still having an impact on absence levels across the organisation; however, are currently at the lowest rate since the outbreak of the virus and they continue to be internally managed by each local policing division. Absence levels and trends are still and will remain closely monitored in order to mitigate risk and address any emerging resourcing demands in early course. Police Scotland's Outbreak Management Team (OMT) remains in place, providing an internal 'track and trace' function and advice to police officers and staff, as well as engaging with divisions to assist in limiting any spread of coronavirus throughout the organisation. Learning opportunities from previous outbreaks are being identified and collated by the team and these will be communicated across all divisions and departments.

Police Scotland's approach remains unchanged and continues to promote 'Engage, Explain and Encourage' methods prior to 'Enforcement' action being taken against apparent breaches of legislation. It remains the position that officers may move more quickly through the 4E process if they perceive that persons are engaging in a blatant, conscious and inexcusable breach of regulations, involving repeat locations or individuals and whether an absence of enforcement would damage public confidence in policing.

5.2 SERVICE CENTRE DEMAND

This week, the volume of 101 calls answered this week is **4%** higher than last week's figure and the volume of 999 calls has decreased by **11%**. The number of 101 calls is lower than the same period in 2020 **(-15%)** and 2019 **(-26%)**. The number of 999 calls is higher than the same period in 2020 **(11%)** and 2019 **(3%)**.

5.3 INCIDENT DEMAND

Total incident volume this week has decreased by 5% when compared to last week's figure. Total incident volume has decreased by 5% from a comparable week in 2020, and decreased by 18% from 2019.

In comparison to the same week in 2020, Public Nuisance incidents have decreased by **52%**, and have increased by **11%** when compared to the same week in 2019.

In comparison to the same week in 2020 Noise incidents have decreased by **15%**, and have also decreased by **6%** when compared to the same week in 2019.

In comparison to the same week in 2020, Disturbance incidents decreased **13%**, and have also decreased by **16%** when compared to the same week in 2019.

In comparison to last week, public nuisance, disturbance and noise incidents have all decreased by **25%**, **7%** and **1%** respectively.

5.4 CRIME

Overall crime in the last week is at a lower level than a comparable period last year; and also remains lower than a comparable week pre-lockdown. Most divisions, with the exception of North East Scotland, Tayside and Fife, have noted a decrease in crime volumes this week when compared to the same period 2020/21. Most divisions, with the exception of North East Scotland and Fife have seen a decrease in volume when compared to the same period 2019/20.

The collective volume of recorded crimes for every crime groups is higher when compared to the previous year. Crime groups **3**, **4 and 6** show a decrease in volume compared to 2019/20 whilst crime groups **1**, **2**, **5** and **7** show an increase.

5.5 COVID-19 INTERVENTION ACTIVITY

As stated above, Police Scotland's approach to the use of COVID-19 legislation remains to firstly engage with people, explain the provisions and encourage them to comply with the necessary restrictions, with enforcement action being taken where there are found to be flagrant and blatant breaches of legislation.

Incidents requiring COVID-19 interventions by officers have decreased from **62** last week to **50** this week **(-19%)**. The total number of persons involved in these interventions has increased from **1014** last week to **1277** this week. **1078 (84%)** of the **1277** interventions this week took place in a private dwelling. This is similar to the previous week's **86%**. Figures for this week are accurate as at 26 May 2021.

Since quarantine regulations came into force on travellers entering Scotland from out with the UK on the 15 June 2020, up to and including 26 May 2021, Police Scotland have received **5468** referrals from Public Health Scotland (PHS) relating to potential breaches of quarantine. **987** of these were dealt with by the resolution team and **932** have been dealt with by local policing. **3548** referrals were weeded prior to an incident being raised. In respect of resolved referrals, **81%** of the foreign travellers were found to be complying with quarantine restrictions. In the majority of the remaining referrals, the travellers have been untraced due to a variety of reasons such as inaccurate data provided to PHS or the expiration of the quarantine period prior to persons being traced.

There have been **19** occasions where enforcement has been used in relation to breaches of quarantine regulations generated from Home Office or Public Health Scotland referrals and one report to the Crown Office and Procurator Fiscal Service (COPFS).

5.6 ABSENCE

General employee absence levels are similar to last week. Divisions and departments are currently coping locally with outbreaks and contact/tracing requirements; however, this is being monitored carefully. Absences related specifically to COVID-19 have increased, with **185** people absent, as of 26 May 2021, which is slightly higher than last week's figure of **172**.

5.7 OUTBREAK MANAGEMENT TEAM

Police Scotland's Outbreak Management Team (OMT) respond to and investigate positive cases amongst officers and staff and work in conjunction with the national NHS Test & Protect network to arrive at proportionate, balanced decisions on the identification of individuals at risk after close contact with a positive case and any requirement for self-isolation. This, following consideration of all operational circumstances, the use of PPE and other safety measures, has enabled the safe retention of officers and staff in the workplace and the self-isolation of those agreed to be at heightened risk. The team's work will continue to capture information and the circumstances in respect of specific outbreaks in order that procedures can be reviewed and additional safety measures cascaded and implemented as required.

From inception until 26 May 2021, the OMT has reviewed **935** cases and, from these, **1441** individuals have tested positive for COVID-19. The work of the OMT has led them to trace **1448** individuals who have required to isolate, whilst the NHS has traced **247** individuals. On average, each case continues to lead to **3.5** absences. The work of the OMT has also led to the identification of **149** individuals who had initially been required to self-isolate and were able to return to work.

5.8 COVID-19 NEAR MISSES

'Near miss' forms in the context of the pandemic situation may be submitted for a variety of reasons e.g. when officers are potentially exposed to COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19. This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE.

The most current 'near miss' figures available for the dates 18 May until 24 May 2021 confirm that **7** forms were submitted. This is an increase from the **2** forms last week.

5.9 GATHERINGS IN PRIVATE DWELLINGS

Scottish Government commissioned data suggests that spread in and between households continues to drive much of the transmission of COVID-19. This analysis has guided the decision to introduce national measures to prevent persons visiting other households in higher risk areas.

Police Scotland have undertaken an assessment of the demand posed by dwelling house gatherings. It should be noted that the methodology of counting of house gatherings is designed to quantify the number of times officers have had to enter a private dwelling or private garden to investigate suspected breach of legislation or guidance, due to the increased risks of COVID transmission associated with these environments; therefore, if officers do not physically attend, or indeed gain entry to the dwelling or garden, this will not be included as a house gathering as there is no evidence there has been one and no increased risk to officers. Information gathered is indicative and should not be considered official police statistics.

Indicative figures from the week of 20 May until 26 May 2021 suggest that Police Scotland attended **92** occurrences of house gatherings throughout the force area, a decrease of **44** from last week. Enforcement levels for FPNs were **137** which has decreased from last week's **225**. Arrests have also decreased from **5** to **3** over the same period.

5.10 TRAVEL REGULATIONS

Travel is allowed both within Scotland and between Scotland and England, Wales, Northern Ireland, the Channel Islands, and the Isle of Man with the exception of any areas of Scotland in Level 3 or Level 4, currently Glasgow City. Therefore Travel Regulations remain enforceable. There have been no travel regulation offences detected during this reporting period.

5.11 SUBMISSION

This report is submitted to the SPA for information and consideration.

Appendix A – COVID-19 Weekly Bulletin contains the information which will be released publically by Police Scotland. This information will continue to be released weekly and will synchronise with the weekly SPA reporting for consistent single data timelines.

All Divisions show a cumulative increase in volume when compared to the same period last year. Most Divisions (excluding North East Scotland, Tayside and Fife) continue to show a cumulative decrease in volume when compared to 2019/20.

Weekly Legislation Co-operation (20th May – 26th May 2021)

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation. This slide includes all offence types

— Face-Coverings, Quarantine, Travel Restrictions and Gatherings.

Due to the manual input required to form this data set, the contents of this slide are indicative only. Actual figures will differ from those recorded on Crime Systems (please see slide 11), may be subject to change, and cannot be considered Official Police Statistics. They do provide an indication of the public co-operation levels across Scotland.

Coronavirus Legislation Co-operation (27th March 2020 – 26th May 2021)

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation. They do provide an indication of the public co-operation levels across Scotland.

Travel Regulation Co-operation (20th November 2020 – 26 May 2021)

In order to report upon policing interventions in respect of the newly introduced Travel Regulations regarding travel to or from tiers 3 and 4, the CVI system has been updated. The above data is a sub-set of the wider CVI interventions reported on the previous slides and should not be considered as 'in addition to' the previous overall CVI activity slides.

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. 'Enforcement' of Coronavirus specific legislation

The following is a summary of all 'enforcement' action in relation to both The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020.

This includes all Fixed Penalty Notices issued and processed by Police Scotland. It also includes all occasions that a charge was libelled and recorded on Police Scotland's Crime Recording System against a person in relation to the aforementioned legislation. This is a true value of the volume of recorded 'enforcement' activity, but does not provide the granularity of the Coronavirus Intervention (CVI) recording system and does not capture the earlier phases of the '4 E's' approach.

These values remain subject to change as offences are retrospectively added or amended and do not match the indicative 'enforcement' values from the CVI recording system.

'Near miss' forms in the context of the pandemic situation may be submitted for a variety of reasons. i.e. when officers are potentially exposed to: COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19.

This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE. This number of 'Near Miss' weekly submissions is up from last week.

The amount of forms submitted continues to be attributable to the process for requesting an asymptomatic COVID-19 screening test due to an occupational risk, requiring the submission of a 'near miss' form. Many of the reports would not have been submitted without this requirement. The number of incidents where a lack of PPE is identified has not risen.

No figures should be considered as Official Police Statistics. These may not yet have been verified or validated.
